

Installation Instructions

SNAP-IN FILLER PANEL FOR TAPPED HOLES

Application

The 34381-Series and 34382-Series Snap-In Filler Panels shown in the table below can be used in any CPI cabinet or rack with rail spacing for standard 19" panel-width equipment and with tapped holes on the mounting flanges.

** (These snap-In filler panels are not meant for equipment mounting rails with square holes rather than tapped holes on mounting flanges.)*

Snap-In Filler Panels

PART NO.		DESCRIPTION ⁽¹⁾	PACKAGE OF
BLACK	GLACIER WHITE		
34381-000	34381-E00	19" W x 1 RMU	1 Each

34381-001	34381-E01	19" W x 1 RMU	6 Each
34382-001	34382-E01	19" W x 2 RMU	6 Each
34381-002	34381-E02	19" W x 1 RMU	50 Each
34382-002	34382-E02	19" W x 2 RMU	50 Each

⁽¹⁾ RMU = Rack Mount Unit = U = 1.75 inch (44.45 mm)

Tools Required

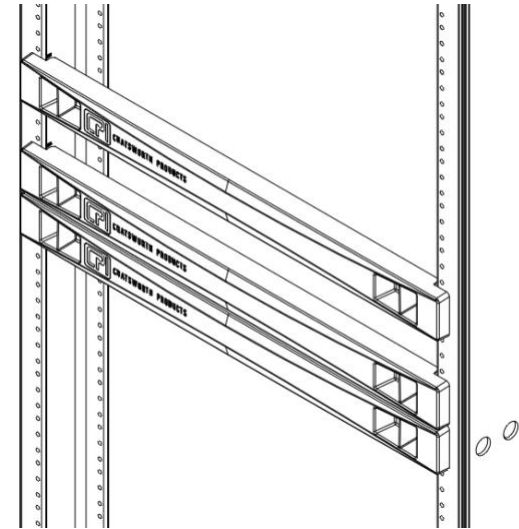

No tools required. Filler panels snap onto equipment rails on both ends.

Installation and Removal

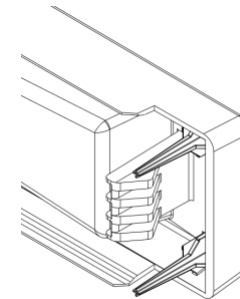

Locate filler panels on both ends using tapped holes on equipment mounting rails and locating pins on rear of filler panel. Press ends of filler panel to snap into place on both ends.

To remove, use handle in recesses toward ends of filler panel to grab and pull both ends straight out.

1 RMU and 2 RMU snap-in filler panels
installed in equipment mounting rails

Locating pins and snap are located on each end of the filler panel
