Save time with the Velocity Standard Pack, combining CPI's industry leading Standard Rack with the easy-to-use, cost-effective, Velocity Cable Management.

- Easy ordering and handling – the rack, cable manager and installation hardware are conveniently packaged in a single compact carton and are ordered using a single part number.

- Quick assembly – it takes just a few minutes to unpack and assemble the rack and Velocity cable manager.

- Stay aligned – openings between the patented cable guide fingers on the cable manager align with each rack-mount unit on the rack, which are marked and numbered to speed equipment installation.

- Hide and secure cables – a sturdy, snap-on, hinged cover is included with each cabling section resulting in a closed, finished appearance.

- Customize your installation – choose between 3.6"W (91 mm) or 6"W (152 mm) single or double-sided Velocity cable managers and easily expand by adding additional accessories.

Velocity Cable Management
Rounded edges protect cables

Easy Installation
Attaches easily to the rack
